Technical Data Sheet (SAMPLE)

This is a placeholder TDS file for the prototype.

In production, replace this with the official Technical Data Sheet
provided by the brand for each product and batch.

Required fields per docs/02 section 2.7:

- SAE viscosity grade, API / ILSAC / ACEA / JASO classes
- OEM approvals with level (approved / meets)
- Kinematic viscosity at 40C and 100C
- Viscosity index, HTHS, pour point, flash point
- Noack volatility, TBN, density at 15C
- SAPS level and base oil group
